On motion made by Supervisor Wickham, seconded by Councilman Keeney, to approve the amended agenda for the October 16, 2018 meeting. Carried.

Privilege of the Floor

Privilege of the floor was offered, no one wished to speak.

Supervisor's Report

Supervisor Wickham reported a number of residents are interested in becoming the Town's Historian, he will form a committee at the next meeting to conduct interviews. Reviewed with the board a map with our current sewer district and possible expansion if new development occurs. Reported that on October 13th the Town of Seneca hosted its first ever residential tire collection event which was a huge success and thanked all employee's that worked or had a hand in making it successful. Scheduled the 2019 Organization Meeting date for Tuesday January 2nd 5:00PM. Reviewed Carol A. Golden, CPA independent accountant's report on agreed-upon procedures concerning the records and reports of former Town Clerk Terri Quartaro, noting no significant exceptions were found.

Supervisor Wickham then reported that quotes for the Water tank refurbishment are \$550,000, thus lending the question what is the cost to build new and would we be further ahead? He and Superintendent Lawson will follow up on this. Supervisor Wickham stated Bob Raeman, from HUNT Engineering, passed away yesterday, and sends our condolences to his family.

Accept Minutes

On motion made by Councilman Malyj, seconded by Councilman Mosher, to accept the minutes from the September 18th regular meeting and September 28, 2018 budget workshop meetings. Carried.

Supervisor Wickham presented the communications.

Written reports were submitted by the Highway & Water Superintendent, Assessor, and Town Clerk and are on file in the Town Clerk's office.

There were no additions to the Highway, Water, Assessor and Town Clerk's reports.

Supervisor Wickham covered CEO Hoover's memo requesting approval to continue our pursuit of becoming paperless. He is purposing doing it in stages, there are funds available to purchase the electronic data management system software this year. This would facilitate all our new documents to the paperless system. We would work in house on scanning old files and as funds allowed could outsource some scanning. The minimum monthly recurring fees would be shared by all departments. CEO Hoover will prepare the documents to purchase the software for next month's meeting. Councilman Smith inquired on the Towns noise ordinance. CEO Hoover stated the Town does not currently have one.

Mark Clinker, General Manager of the Ontario County Landfill was present and reported the new cell construction should be done mid-November. Shop and parking area construction is also coming along. The new cell construction required a tie into an old cell and the primary drainage layer connection is exposed they are noticing some slight gas odors from time to time being produced from this area. This will be corrected when they complete the cell construction and place waste over this area.

They continue to work at slope seeding and stabilization. The pilot dewatering well pump project is online for 12 watered-in wells. The pumps are currently operating at 1.5 GPM. Data is being gathered and trending watched. Water out of these wells are creating some lagoon odors, they continue to readjust the lagoon system and are currently trying new products to address this. The trailer mounted odor control system is being deployed downwind of the active area daily.

A tear in the temporally cap was the source of a recent leachate breakout. The contamination was isolated and totally contained in storm water pond 2. The pond water was sampled to compare to their quarterly required sampling results and they are managing and directing it to treatment plants.

Mr. Clinker stated because of the unfortunate accident that occurred on 8/4 they have been focusing more of their attention to Driver Education, Landfill Customer Awareness, Monitoring and Re-training. They have added a programmable highway sign to make sure they get the drivers attention before exiting the landfill to check their truck before exiting. They have increased highway monitoring and utilize their street sweeper and or are flushing the road with the water truck to keep it free of any random materials.

Councilman Malyj, chair of the Seneca Castle School Bell Committee, reported that due to the passing of his family members there was nothing new to report from the committee. Supervisor Wickham stated it was noted that the Seneca Castle Park was in need of some repairs, and as the bell will be going in the park a coordinated effort should be made and would like to seek residents input. He will work on a survey to get out to the residence in the hamlet of Seneca Castle to gauge the Seneca Castle park usage and seek residents input on needs and wants to help determine the scope of work to be done in the Seneca Castle Park. CEO Hoover stated he had contacted Rob Wolfe and he is willing to assist with this project. The Little Library will move forward and be installed in the Seneca Castle Park but will be easily moved if the need arises.

Supervisor Wickham stated that there was nothing new to report regarding the Cornell certiorari.

Privilege of the Floor

No one wished to speak.

With no further business, the meeting was adjourned at 8:20pm on motion of Councilman Keeney seconded by Councilman Mosher. Carried.
