Re: Town of Geneva Water District 6 Watermain Replacement Project

Pursuant to the State Environmental Quality Review (SEQR) Act, please be advised that the Town of Geneva Town Board (hereinafter referred to as Town Board) intends to establish itself as Lead Agency for the purpose of implementing the SEQR requirements with respect to the project described below. Enclosed for your review is Part I of the SEQR Full Environmental Assessment Form (EAF), Lead Agency Coordination Request Form, and Town of Geneva Water District Map and Plan, Improvements Location Plan, Wetlands Mapping, and USGS Topo Mapping.

The proposed project includes the replacement of an existing 8" ductile iron watermain that is deteriorating along County Road 6 within the Town of Geneva. Approximately 9,200 feet of 8" PVC SDR-18 of new watermain will be constructed along the west side of County Road 6 extending from County Road 4 to the municipal line of the Town of Geneva and the Town of Phelps. Appropriate hydrants and valves will also be provided as dictated by the NYS Department of Health. It should be noted that the project will mostly be constructed within the right-of-ways.

In accordance with 6 NYCRR Part 617, all involved agencies must agree upon the Lead Agency designation within 30 calendar days of the date of receipt of this letter and the enclosed EAF. To facilitate such an agreement and to provide for sufficient time for discussion, if any, the Town Board requests that all response forms to this notice be returned to the noted address as soon as possible.

In the event that a response is not received at or before **12:00 PM on Monday, April 13, 2015** your agency will be deemed to have no objection to the Town of Geneva Town Board assuming Lead Agency status for the purpose of this project. To facilitate your response, please complete the enclosed SEQR Lead Agency Coordination Request Form and return it as part of your response.

Sincerely,

Mark Venuti, Supervisor
