

Happy Composting!

The Town of Seneca is pleased to inform you that we've partnered with Impact Earth to promote residential composting!

What this means for you:

- Beginning Wednesday, February 24th, 2021, Impact Earth will deliver two large totes to the Town of Seneca Transfer Station for you to place your compost in when you drop off your other waste.
- We will start with a monthly pick-up at the Transfer Station and Impact Earth will replace the 2 full totes with 2 clean ones.
- Impact Earth will provide a monthly usage report to our town for any interested parties to view and for us to keep track of how this is going. The usage will be reviewed based on the monthly report and the number of totes/pickup frequency can be adjusted (if needed).
- There will be more details as this project develops. For a listing of accepted materials, see the page below! As always, if you have any questions please feel free to reach out and we will do our best to answer or find the answer.
